Output targets

Indicators	Denominator	Baseline 2018	Target				
			2021	2022	2023	2024	2025
4.1.1 Infection prevention and control							
Percentage of centers delivering DR TB treatment comply with TB IC standards ¹	Number of centers delivering MDR TB treatment, will be increased each year		100%	100%	100%	100%	100%
Percentage of townships TB centers comply with TB IC standards ¹	330		60%	70%	80%	90%	100%
Percentage of health workers in TB/DR TB centers undergo annual CXR screening	Number of health workers working in TB services, will be increased by year		50%	75%	85%	90%	95%

Indicators	Denominator	Baseline 2018	Target				
			2021	2022	2023	2024	2025
4.1.2 TB preventive treatment for all TB contacts and PLHIV							
Percentage of eligible < 5- year-old TB household contacts starting TB preventive treatment	Number of estimated eligible <5 year-old TB household contacts	534 (2%)	70%	75%	80%	85%	90%
Percentage of eligible 5- 30 year-old TB household contacts starting TB preventive treatment	Number of estimated eligible 5- 30 year-old TB household contacts	0	0	10%	25%	50%	75%

Indicator and target of new enrolled PLHIV starting TB preventive treatment will be followed by NAP

Indicators	Deno minat or	Baseline 2018	Target				
			2021	2022	2023	2024	2025
4.2.1 Improve the quality and coverage of active case finding: mobile teams, CBTBC, contact investigation							
Number of mobile clinic visits to different high risk groups	NA						
- Prisons		75	92	92	92	92	92
- Urban congested / peri urban		70	220	364	450	440	430
- Hard to reach		269	475	731	850	850	850
- Workplaces		13	15	20	25	30	35
- IDP camps		4	10	15	20	25	30

Indicators	Denominator	Baseline 2018	Target				
			2021	2022	2023	2024	2025
4.2.1 Improve the quality and coverage of active case finding: mobile teams, CBTBC, contact investigation							
Number of presumptive TB patients referred by CBTBC		170,298					
Percentage of bacteriologically confirmed TB patients whose household contacts evaluated	Bacteriological ly confirmed notified TB patients	40%	50%	70%	80%	90%	100%
Percentage of DR TB patients whose household contacts evaluated	Notified DR TB patients	NA	70%	80%	90%	100%	100%

Indicators	Deno minat or	Baseline 2018	Target				
			2021	2022	2023	2024	2025
4.2.2 Promote and strengthen accelerated case detection among high risk groups attending health services							
Number of elderly presumptive TB cases referred by community health clinic (CHC)	NA	NA					
Number of presumptive TB cases referred by ANC/ PNC/U5 clinics	NA	15,369	18000	20000	22000	24000	26000

Indicators	Denominator	Baseline 2018	Target				
			2021	2022	2023	2024	2025
4.2.3 Improve treatment success rate among high risk population*							
Treatment success rate among notified TB cases > 50 years old	Notified TB cases aged >50 years old		80%	85%	90%	90%	90%
Treatment success rate among prison inmates notified with TB	Notified TB cases, prison inmates		80%	85%	90%	90%	90%
Treatment success rate among urban poor notified with TB	Notified TB cases, urban poor		80%	85%	90%	90%	90%
Treatment success rate among rural poor notified with TB	Notified TB cases, rural poor		80%	85%	90%	90%	90%

*From sampled township, sentinel, or projects or implementation research

Indicators	Denominator	Baseline 2018	Target				
			2021	2022	2023	2024	2025
4.2.3 Improve treatment success rate among high risk population*							
Treatment success rate among high risk workers notified with TB	Notified TB cases, high risk workers		80%	85%	90%	90%	90%
Treatment success rate among ethnic minorities notified with TB	Notified TB cases, ethnic minorities		70%	72%	75%	78%	80%
Treatment success rate among migrants notified with TB	Notified TB cases, migrants		80%	82%	85%	85%	90%
Treatment success rate among IDP camps inhabitant notified with TB	Notified TB cases, IDP camps inhabitants		80%	85%	90%	90%	90%
Treatment success rate among drug users notified with TB	Notified TB cases, drug users		70%	75%	80%	80%	85%

*before case base reporting has established, TSR from ethnic minorities and migrants will be collected by sectors/IPs

Activities to be included

- 1 . Adolescent involvement (In collaboration with education department, vocational training schools)
