

National Strategic Plan 2021-2025

National TB Programme

Vision	Myanmar free of TB Zero deaths, disease and suffering due to TB by 2050
Goal	End the TB epidemic in Myanmar Fewer than 10 cases per 100,000 population by 2035

Objectives (Current)	Objectives (Proposed)
<p>Objective 1: Accelerate response for further decline in the prevalence of drug-sensitive and drug-resistant TB</p>	<p>Objective 1: Achieve a faster decline in TB burden through an accelerated multisectoral TB response</p>
<p>Objective 2: Fully integrate essential TB control services* in UHC and health system strengthening</p>	<p>Objective 2: Further expand TB services through Universal Health Coverage and strengthen partnerships with all stakeholders</p>
<p>Objective 3: Enhance effort for infection control and prevention of TB, particularly for marginalized and high-risk populations</p>	<p>Objective 3: Minimize TB transmission by intensifying efforts on high-risk populations and areas, preventive treatment and infection control</p>

Strategic Directions (Current Vs Modified)	Intervention areas (Current)	Intervention areas (Modified)
<p>1. Integrated patient-centred care and prevention</p> <p>1. Progress towards achieving universal access to TB care and prevention</p>	<p>1.1 Accelerate appropriate diagnosis of TB</p> <p>1.2 Detect and treat all forms of TB, among all ages and including DR and DS cases</p> <p>1.3 Joint TB/HIV programming to enable decentralized and integrated services for TB and HIV</p> <p>1.4 TB collaborative activities</p>	<p>1.1 Expand quality TB screening and diagnostic services closer to community</p> <p>1.2 Detect and treat all forms of TB and DR TB</p> <p>1.3 Strengthen management of TB in children</p> <p>1.4 Undertake joint TB/HIV programme and decentralize integrated services for TB and HIV</p> <p>1.5 Expand collaborations to manage TB co-morbidities</p> <p>1.6 Strengthen infection control and expand preventive treatment for TB</p>
<p>4. Reaching the unreached</p> <p>2. Reach the unreached populations by mounting a coordinated TB response</p>	<p>4.1 Prevent transmission and emergence of active TB</p> <p>4.2 Intensified and targeted actions to reach marginalized, at-risk populations</p>	<p>2.1 Target actions to reach all at-risk populations</p> <p>2.2 Mount a coordinated response to tackle TB in Yangon region</p>

<p>2. Communication, community engagement and partnership</p> <p>3. Expand partnerships and community engagement and improve communication</p>	<p>2.1 Implement a robust communication strategy targeting a wide range of stakeholders</p> <p>2.2 Engage all care providers including NGOs and private sector in TB response</p> <p>2.3 Promote and strengthen community engagement</p>	<p>3.1 Engage all care providers including NGOs and private sector in TB response</p> <p>3.2 Promote and strengthen community engagement</p> <p>3.3 Implement a robust communication strategy targeting a wide range of stakeholders</p>
<p>3. Bold policy and supportive systems</p> <p>4. Strengthen systems and update policies for a multisectoral TB response</p>	<p>3.1 Human resources for health</p> <p>3.2 Secure finances to implement NSP</p> <p>3.3 Promote and coordinate a multisectoral TB response and policy development</p> <p>3.4 Ensure inclusion of TB in UHC and wider economic and development plans and activities</p> <p>3.5 Improve access to medicines, diagnostics and supplies</p>	<p>4.1 Ensure availability of essential human resources</p> <p>4.2 Strengthen procurement and supply systems for efficient care delivery</p> <p>4.3 Ensure inclusion of TB in UHC and wider economic and development policies, plans and activities</p> <p>4.4 Promote and coordinate a multisectoral TB response</p> <p>4.5 Secure finances to enable implementing the NSP</p>
<p>5. Intensified Research, M&E and Innovation</p> <p>5. Promote research and innovation and strengthen surveillance for programme monitoring evaluation</p>	<p>5.1 Strengthen research culture and capacity at different levels</p> <p>5.2 Implement updated, prioritized research agenda</p> <p>5.3 Strengthen TB surveillance system and programme M&E</p> <p>5.4 Promote evidence-based policies, decision making and implementation</p>	<p>5.1 Strengthen research culture and capacity at different levels</p> <p>5.2 Implement updated, prioritized research agenda</p> <p>5.3 Strengthen TB surveillance system and programme M&E</p> <p>5.4 Develop and make available evidence to update policies, design interventions and develop interventions</p>
