

Training on “International Conference on Harmonisation Good Clinical Practice (ICH GCP)”

General objective and specific objectives

General objective

- To strengthen good clinical research practice in conducting clinical trials and clinical studies incorporating the principles of responsible conduct of research and research ethics among clinicians at Medical and Health related Universities under MoHS, Myanmar

Specific objectives

- To promote awareness and understanding of the importance of good clinical practice harmonizing with responsible conduct and research ethics principles among clinicians in research involving human subjects
- To encourage the conduct of clinical research studies to strengthen research culture in Myanmar
- To cultivate the application of ICH GCP principles in clinical studies conducted in Myanmar

Expected outcome

The workshop will improve the clinician’s understanding of the ICH GCP principles, clinical research methods, common ethical problems in clinical research, and build the capacity of faculty in good clinical and research practice. Certificate of training will be provided.
